

## MATA SUKHDEVI SCHOOL SESSION 2025-26

### *Exploring the Universe with Curiosity*

#### **Educational Trip to Nehru Planetarium**

On 6th September 2025, an educational trip to the Nehru Planetarium, New Delhi, was organised by our school for the students of Classes III to V. The students were filled with excitement and curiosity as they embarked on this journey of learning beyond the classroom.

The group reached the planetarium around 10:20 a.m. and attended a fascinating show titled *Biography of the Universe*. The show provided valuable insights into the Milky Way galaxy, planets, constellations, meteors, and several other wonders of the cosmos. It was an engaging experience that ignited the imagination of the young learners.

Afterwards, the students gathered in the ground to enjoy their lunch. The time spent together was filled with joy, laughter, and camaraderie, making the day both educational and memorable.

The trip proved to be a highly enriching experience. It not only expanded the horizons of knowledge but also left the students inspired to explore the mysteries of the universe.
